

NERC CERTIFICATION

Energy Professionals preparing to pass the NERC Exam

Power system operators are retiring in droves and a new generation is stepping in to fill their shoes. For these energy professionals in new roles, one of the first and most important career milestones is achieving NERC Certification.

SOS Intl can help you master the basic knowledge you need to work in the bulk electric industry and prepare you to be successful on the NERC certification exam. *PowerStarters* introduces the new operator to the power grid and its components along with the *NERC Certification Preparation* material to help prepare individuals to achieve NERC Certification. Just as important, these two programs help you comply with NERC's requirement for initial operator training to orient new hires to the workings of the electric grid.

NERC CERTIFICATION PREPARATION

	CODE	DELIVERY METHOD	PRICE	CEH	STAND	SIM	EO
NERC Certification Preparation/Online	NERCO	Online	\$ 1800	*	-	-	27
NERC Certification Preparation/Classroom 3-day	NERCC	Classroom	\$ 810	24*	22*	-	13

- The online program is based on NERC Reliability Standards current for this exam (as identified in the most current NERC Study Guide).
- For most students, we recommend this online Standards training to be supplemented with an intensive classroom review, based on the content outline - the best source for exam study.
- NERC Certification Preparation/Online will be converted to Standards Always Current for the balance of the 1-year password life after the NERC exam has been passed. Training in Standards Always Current will earn the student CEH and EO credits towards recertification.

* NERC Certified Operators with a NERC Certification Number earn the credits/hours shown. All others are eligible for EO and Professional hours only.

SOS Intl NERC Certification Preparation materials are based on the NERC Standards that were effective Jan. 1, 2007. A complete set of these standards can be found at: www.nerc.com/docs/compliance/pcgc/Reliability_Standards_Complete_Set_01Jan07.pdf

INITIAL OPERATOR ONLINE TRAINING

	PRICE
Initial Operator Training Bundle	\$ 2600

Initial Operator Training Bundle combines PowerStarters and NERC Certification online preparation in one convenient, cost-saving bundle — \$600 off combined prices. Classroom training material extra.

This bundle gives you the basis to launch your career in the power industry. Learn the fundamentals of the power system and prepare to take your NERC certification exam.
